- Oil for frying (pantry)
  → Vegetable oil, NFS
- 1 tsp paprika powder (pantry)
  → Spices, paprika
- 4 tbsp vegan mayonnaise (pantry)
  → Vegan mayonnaise
- 2 tbsp apple cider vinegar or white wine vinegar (pantry)
  → Vinegar, cider
- 1½ tsp mustard (pantry)
  → Mustard greens, raw
- ½ tsp curry powder (pantry)
  → Spices, curry powder

Preparation

Amounts in the steps are for 2 servings, as on crisp.nl.

Step 1

Preheat the oven to 220 degrees.

Step 2

Peel and/or wash 300 g potatoes and cut into cubes of approx. 2 cm. Mix with oil, ½ tsp paprika powder, pepper and salt and spread over a baking tray lined

with baking paper. Bake for approx. 20 minutes in the oven.

Step 3
Cut 300 g pointed cabbage into thin strips. Place in a salad bowl with a generous pinch of salt. Grate 125 g carrot into it. Knead the vegetables for a minute. This will soften them, as kneading breaks down the fibres. Set aside.

Step 4
Fry 1 packet vegetarian shawarma strips in some oil in a frying pan until cooked and brown in approx. 8 minutes.

Step 5
Meanwhile, mix 100 ml vegan yoghurt and 2 tbsp vegan mayonnaise in a small bowl. Keep half in another small bowl for the potatoes. Mix the rest with 1 tbsp apple cider vinegar or white wine vinegar, ¾ tsp mustard, ¼ tsp

curry powder, pepper and salt and stir through the cabbage and carrot.

Step 6
Peel 150 g Chioggia beetroot and grate with a coarse grater. Finely chop 1 bunch coriander. Add both to the coleslaw and mix well.

Step 7
Place 4 pita bread on a wire rack in the oven and bake for approx. 3 minutes (or use the toaster).

Step 8
Fill the pita bread with a spoonful of coleslaw and the chicken. Serve the rest of the coleslaw with the potatoes and the yoghurt-mayo sauce.

Chef's notes & cookware

- The oven is essential for roasting the potatoes and warming the pita bread. Use the

frying pan for browning the shawarma strips; the big and medium pots are not needed for this recipe (steps 2, 4, 7).

- Maximize efficiency by starting the shawarma in the frying pan while the potatoes are baking in the oven. For the pita bread, use the air fryer to warm them quickly and free up the oven if needed (steps 2, 4, 7).
- Before any heat goes on, prepare all vegetables: peel and cube potatoes, thinly slice cabbage and grate carrots, and peel and grate beetroot and chop coriander. This makes assembly and cooking much smoother (steps 2, 3, 6).
- Start the potatoes immediately after preheating the oven as they have the longest cooking time. Plan to warm the pita bread only

in the final minutes before serving to ensure they are fresh and warm (steps 1, 2, 7).

- For the coleslaw, thoroughly knead the cabbage and carrot with salt to soften them properly before adding other ingredients, which greatly improves the final texture. Ensure the potatoes are spread in a single layer on the baking tray for optimal crispiness (steps 2, 3).
